BACKGROUND

Prior to the release of Zervas and Pepper's new album "Abstract Heart" released 20th April 2015, Active Media are pleased to make available as a commercial physical release their previous critically acclaimed album "Lifebringer"

Zervas & Pepper are currently making waves on UK Radio stations. The pair discovered one another while performing in their home town clubs as solo artists. Sharing a love of harmony-heavy evocative folk rock, the songwriters began writing and recording together. Along with their band they promise elegantly crafted songs that transport their audience with escapist narrative, soaring melodies and wild tales collected for their travels. Their luminous, heady sound provides a escape from reality to a sun drench sonic landscape.
